

Chara Oraiopoulou B.Sc., M.Res. Clinical Embryologist, accredited by the European Society of Human Reproduction and Embryology ESHRE

Chara Oraiopoulou is a clinical embryologist with long experience in the field of assisted reproduction. She is specialized in the kinetic analysis of embryonic development using a time-lapse system and preparing embryos for preimplantation genetic testing (PGT).

She graduated in 2006 from the Department of Biology, Aristotle University of Thessaloniki and completed her postgraduate studies and research work on “Reproductive Biology” at the Medical College of the University of Glasgow, Great Britain, with distinction.

Between 2009 and 2010, she worked at a biotechnology company in Thessaloniki, specialising in the isolation and cryopreservation of human stem cells.

Since 2010, she has been a member of the laboratory team of clinical embryologists at Embryolab. In 2013 she obtained certification as a clinical embryologist from the European Society of Human Reproduction and Embryology (ESHRE).

She is a member of the Pan-Hellenic Association of Clinical Embryologists as well as the European Society of Human Reproduction and Embryology (ESHRE).

She participates actively as a trainer in all Embryolab Academy’s activities.
